

**M.D.M Mono Transceiver
system 8.2 Mhz**

Specially suited for hyper, supermarket & apparel store(s) usage; our SIDE P's Transceiver system range is an ideal solution to protect wide exits limiting the number of systems installed or in cashier line configuration in supermarket.

Highly accurate this Mono System provides an efficient detection on both sides of the pedestal with hard tags, EAS labels and source tagged products.

Thanks to its Auto-Adjusting Digital Processor (DSP), this Mono Systems requires limited maintenance service and can be installed and adjusted without professional supervision.

Complete System includes: 1 or 2 transceiver antenna and one power supply with Tags & labels & deactivation/detaching tags equipment.
